

## **REMARKS**

Claims 1-30 are pending in this application. Claims 1-8 were rejected under 35 U.S.C. § 102(b) as being anticipated by publication number US 2003/0223604 A1 of Nakagawa; Claims 9-10 and 13-14 were rejected under 35 U.S.C. § 103(a) as being unpatentable over Nakagawa in view of U.S. Patent No. 6,937,852 to Pehrsson and further in view of publication number US 2003/0008689 A1 of Uda; and Claims 19-26 and 30 were rejected under 35 U.S.C. § 103(a) as being unpatentable over Nakagawa and “further in view of Pehrsson.” The finding of allowable subject matter in Claims 11, 12, 15, 16, 17, 18, 27, 28 and 29 is gratefully acknowledged.

In this Final Office Action, Exhibit A that of the Rule 131 Declaration filed in response to the prior Office Action was found to be ineffectual for not complying “with evidence to show the reduction to practice since there is a lack of understanding of the invention disclosure document.” (Office Action, page 17.)

To overcome the finding of an ineffectual Declaration, a replacement Rule 131 Declaration is submitted that includes a translation of the foreign language Exhibit A.

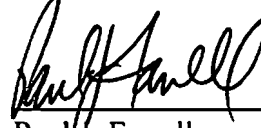

Claims 1, 8, 9, 19 and 30 are the pending independent claims. Each independent claim was rejected in view of Nakagawa, either alone or with another reference. The Rule 131 Declaration antedates Nakagawa, making Nakagawa an invalid prior art reference.

Accordingly, the rejection of Claims 1, 8, 9, 19 and 30 must be withdrawn. Without conceding the patentability per se of Claims 1-7, 10-18 and 20-29, the claims are allowable at least in view of their dependency therefrom.

In view of the above, all of the claims pending in the application, namely, Claims 1-30, are believed to be in condition for allowance. Should the Examiner believe that a telephone

conference or personal interview would facilitate resolution of any remaining matters, it is requested that the Examiner contact Applicants' attorney at the number given below.

Respectfully submitted,

Paul J. Farrell
